RE: Letter of Reference

Dear Sir or Madam:

I am pleased to offer this Letter of Reference for J&M Business Solutions, LLC as an association management company. As the past president of the National Drilling Association, I have had the pleasure of working with J&M for the past eight years. Their services were invaluable to me during my tenure as president of the NDA.

J&M provides complete oversight of the day to day operations of the NDA. Their services include but are not limited to planning and coordinating board meetings, conventions and trade show attendance throughout the United States. In addition, J&M manages our membership, magazine, advertisements, finances, website, educational and exam programs.

I would highly recommend J&M Business Solutions as a management company. They would be an asset to any association. The NDA and I have nothing but high praise for Jackie Symons and the other individuals who assist her at J&M. Feel free to contact me if you would care to discuss in depth their myriad capabilities and what they've brought and continue to bring to the NDA.

Sincerely,

Peggy McGee  
President
